<b>8</b>	<b>Overview.....</b>	<b>7</b>

## 1 Administration

### 1.1 GC log with absolute timestamps

With the current version of the **FirstSpirit backend**, the log file of the garbage collector (`fs-wrapper-vendor.conf`) contains absolute timestamps, which facilitate traceability of issues.

### 1.2 Multiple administrator groups for internal groups

FirstSpirit now allows the assignment of multiple internal administrator groups per project. Previously, this option was only available for external groups. This enables granular permission management and better administration of permissions within the project context.

## 2 Administration / Modules

### 2.1 Discontinuation of the "Agency Support" module

Support for the module "FirstSpirit Agency Support" will be discontinued with FirstSpirit **2025.8**.

Since the FirstSpirit version 2023.6, the module "FirstSpirit Agency Support" is no longer a system module and can therefore be uninstalled.

## 3 FirstSpirit Content Experience Tools (CXT)

### 3.1 Latest module versions

FirstSpirit 2025.8 supports the following module versions for FirstSpirit Content Experience Tools.

Module / file name	Version number
FirstSpirit CXT Plattform	6.1.18
<code>platform-[version].fsm</code>	
FirstSpirit CXT DAP Bridge	1.44.36
<code>dataservice-[version].fsm</code>	
FirstSpirit CXT FragmentCreator	5.0.23
<code>fragment-creator-[version].fsm</code>	
FirstSpirit Fragment DAP	1.40.46

fragmentdap-[version].fsm	
FirstSpirit Media DAP	1.31.34
mediadap-[version].fsm	
FirstSpirit PageRef DAP	1.9.34
pageref-[version].fsm	
FirstSpirit Markdown Editor	1.29.34
markdown-editor-[version].fsm	
FirstSpirit Tagging Editor	1.29.34
tagging-editor-[version].fsm	
FirstSpirit CXT FragmentCreator - CaaS	1.31.33
Integration	
caas-integration-[version].fsm	
FirstSpirit Image Assistant	1.0.63
imagerecognition-module-[version].fsm	
FirstSpirit Analyze Assistant	0.9.10
FirstSpirit-AiAnalyze-[version].fsm	
Template Development MicroApp	0.9.45
fs-sitedev-microapp-[version].fsm	
FirstSpirit Multisite Management	1.5.8
fs-multisite-[version].fsm	

## 4 FirstSpirit Omnichannel Manager

### 4.1 Discontinuation of the Omnichannel Manager 2.x

Support for **Omnichannel Manager 2.x** will be discontinued in the medium term.

Schedule:

- From version **2025.8**: OCM 2.x will only be provided in our SaaS environments for customers with active usage.
- From version 2025.11: Provision will be by request only. Please contact our **Customer Support** if you still require OCM 2.x.
- From version 2026.2: OCM 2.x will no longer be supported and will no longer be available in our SaaS environments.

With the FirstSpirit version 2024.8, the **Omnichannel Manager 3.0** has been officially released.

To ensure that the projects continue to operate successfully in the future, they must be upgraded to **Omnichannel Manager 3.0**.

For more information, including migration, see the [documentation for the Omnichannel Manager 3.0](#).

## 5 AI-powered tools

### 5.1 Content Assistant: Support for Tables

The Content Assistant now supports tables in the DOM and DOMTABLE input components with improved text integration and cell selection.

## 6 Language-dependent Release

### 6.1 Language-dependent Release – Closed Beta Phase

With FirstSpirit version 2025.6, the new "Language-dependent Release" functionality has entered a closed beta testing phase.

This feature allows editors with the appropriate permissions to release and publish content for individual languages in multilingual projects.

[Documentation](#) for the new functionality has now also been created.

Interested customers can contact [Customer Support](#) to check eligibility for participation in the beta phase.

## 7 Deprecations

For Crownpeak, an important goal in software development is to avoid introducing incompatibilities and migration expenditures related to updating from one FirstSpirit release to the next as much as possible or to compensate for these within the software. FirstSpirit updates should generally be deployable with little effort or able to be carried out in a fully automated fashion.

However - not least in order to ensure maintainability and to future-proof the software - e-Spirit cannot fully avoid replacing existing functionality with new mechanisms. In the future, functionality that will be

removed from the software will be listed in this section, including the date at which time the functionality will be removed.

Functionality	Deprecated as of	Will be removed/ Was removed as of
Input component CMS_INPUT_CONTENTAREALIST	5.2R3	
Input component CMS_INPUT_CONTENTLIST	5.2R3	
Input component CMS_INPUT_FILE	5.2R3	
Input component CMS_INPUT_LINKLIST	5.2R3	
Input component CMS_INPUT_OBJECTCHOOSER	5.2R3	
Input component CMS_INPUT_PAGEREF	5.2R3	
Input component CMS_INPUT_PICTURE	5.2R3	
Input component CMS_INPUT_TABLIST	5.2R3	
FirstSpirit Access API: de.espirit.firstspirit.agency.GroupsAgent	5.2R15	
FirstSpirit Access API: delete (de.espirit.firstspirit.access.AccessUtil)	5.2R18	
FirstSpirit Access API: release (de.espirit.firstspirit.access.AccessUtil)	2018-06	
FirstSpirit Access API: getLastLoginAsDate (de.espirit.firstspirit.agency.UserStatisticsAgent)	2018-07	
FirstSpirit Access API: remainingDurationOfCurrentStageInMillis (de.espirit.firstspirit.server.MaintenanceModelInfo)	2018-07	
FirstSpirit Access API: getStartingTimeOfStageAsDate (de.espirit.firstspirit.server.MaintenanceModelInfo)	2018-07	
FirstSpirit Access API: getSelectedWebserverConfiguration (de.espirit.firstspirit.access.serverConfiguration)	2018-10	

Functionality	Deprecated as of	Will be removed/ Was removed as of
FirstSpirit Access API: setSelectedWebserverConfiguration (de.espirit.firstspirit.access.serverConfiguration)	2018-10	
FirstSpirit Access API: getSelectedWebServer (de.espirit.firstspirit.access.project.Project)	2018-10	
FirstSpirit Access API: setSelectedWebServer (de.espirit.firstspirit.access.project.Project)	2018-10	
FirstSpirit Access API: getLostAndFoundStoreNodes(); (de.espirit.firstspirit.feature.FeatureInstallResult)	2018-10	
FirstSpirit Access API: getDeletedStoreNodes(); (de.espirit.firstspirit.feature.FeatureInstallResult)	2018-10	
FirstSpirit Access API: de.espirit.firstspirit.access.store.Previewable	2019-01	
WebSphere Application Server support for FirstSpirit	2019-05	
FirstSpirit Access API: redirectTemplateLogToDefaultLog() (Interface RenderingAgent.Renderer)	2021-05	
Omnichannel Manager 2.x	2025-01	February 2026
FragmentCreator	2025-01	November 2025
Modules with legacy resources	2025-02	August 2025
FirstSpirit Agency Support	2025-02	2025-08

## 8 Overview

ID	Description	Categories
CORE-16889	Project metadata in Git-based branch projects is now always set even in the case of a faulty import, ensuring that the auto-cleanup functions reliably.	Template Development

ID	Description	Categories
CORE-17115	<p>It is now possible to create more than one internal administrator group for a project.</p> <p>Further information can be found in chapter “Administration: Multiple administrator groups for internal groups”.</p>	Project Administrator
CORE-17129	Uses of the internal dependency "Apache HTTP Client" have been migrated to the HTTP client integrated by default with Java.	Server Administrator
CORE-17130	<p>The FirstSpirit backend now logs garbage collector events with absolute timestamps for better traceability.</p> <p>Further information can be found in chapter “Administration: GC log with absolute timestamps”.</p>	Server Administrator
CORE-17199	Fixed an error in the "AWS S3 Deployment" and "AWS URL Redirect" modules when the region was not configured in the settings.	AWS S3 Deployment, AWS URL Redirect
CORE-17200	A bug was fixed that prevented the deployment of bundles containing datasets that had never been released before.	Multisite Management
CORE-17201	The resource consumption when using ContentTransport has been optimized.	Content Transport
CORE-17221	Modules with services that implement a proxy class with the interface <code>java.io.Closeable</code> could not be installed on a FirstSpirit server.	Module development
CORE-17232	<p>FirstSpirit Content Experience Tools: Latest module versions</p> <p>Further information can be found in chapter “FirstSpirit Content Experience Tools (CXT): Latest module versions”.</p>	FirstSpirit Content Experience Tools (CXT)
CORE-17253	An error in the reference calculation for outgoing edges has been fixed.	Multisite Management
CORE-17263	A bug was fixed that prevented the creation and subsequent editing of bundle settings.	Multisite Management

ID	Description	Categories
CORE-17268	Support for the "FirstSpirit Agency Support" module has been discontinued starting with FirstSpirit version 2025.8.  Further information can be found in chapter "Administration / Modules: Discontinuation of the "Agency Support" module".	FragmentCreator
CORE-17271	Closed beta phase for the new feature "Language-dependent Release"  Further information can be found in chapter "Language-dependent Release: Language-dependent Release – Closed Beta Phase".	Language-dependent Release
CXT-3496	When processing section references, the setting for hiding a section was not saved for certain languages.	ContentCreator
CXT-3525	Further improvements for accessibility in ContentCreator.	Accessibility, ContentCreator
CXT-3552	If the connection between the CXT platform and FirstSpirit cannot be established, a log message with the cause will now be recorded.	FirstSpirit Content Experience Tools (CXT), Server Administrator
CXT-3554	Support for tables has been implemented in the input components DOM and DOMTABLE for the Content Assistant.  Further information can be found in chapter "AI-powered tools: Content Assistant: Support for Tables".	AI-powered tools, Content Assistant
CXT-3556	Improvements to the accessibility of the main toolbar in ContentCreator.	Accessibility, ContentCreator
CXT-3570	When using <code>TPP_SNAP#moveSection</code> in OCM 3.0, the insertion position of a section was sometimes not calculated correctly.	FirstSpirit Omnichannel Manager
CXT-3580	For long-running user sessions (over 12 hours), access to MicroApps such as Template development in the ContentCreator was no longer possible.	FirstSpirit Content Experience Tools (CXT), Template Development for ContentCreator

ID	Description	Categories
CXT-3590	Support for <b>Omnichannel Manager 2.x</b> will be discontinued in the medium term.  Further information can be found in chapter “FirstSpirit Omnichannel Manager: Discontinuation of the Omnichannel Manager 2.x”.	FirstSpirit Omnichannel Manager
DEVEX-678	When installing modules via the FirstSpirit API, there was no feedback in the server's log files in case of an error.	FSDevTools, FirstSpirit API, Modules
DQMMOD-25	A bug was fixed that occurred when clicking on checkpoints in the DQMConnect report if no preview was visible. The check for the preview element was made more robust.	ContentCreator, DQM Connect
